A high-tech hub

Casablanca's Aeronautics Park, located in Mohammed V airport, is now considered as a reference for the national aircraft industry. Spreading out on 200 hectares, it hosts the leading-edge companies, providing them the best equipment and facilities.

The companies moving to Casablanca's Aeronautics Park get immediate support and coaching to assist them in setting-up as soon as possible and in order to focus on their proper activities. Moreover, the Aeronautics Park also

provides a tailored-made follow-up for each company in order to multiply their chances of success and development.

Initially planned exclusively to the aircraft industry, the Aeronautics Park attracted straight off eco-friendly industries, certainly interested in easy access facilities offering so many advantages.

For integrating outside companies, the Aeronautics Park appealed to contribution a renowned institution, the Moroccan Airports Authority, which is very proud to domicile today so many prestigious national as international companies.

A regional reference hub

Located at only 30 kilometers from the economic capital of Morocco, Casablanca's Aeronautics Park is at the crossroads of the main highways and railroads serving every region of the kingdom.

Likewise, the industrial park is perfectly accessible from the main world capitals, thanks to the flight connections operated by the numerous airlines serving the first airport of the kingdom, Casablanca Mohammed V airport.

7,5

Million
passengers

transit by the airport
Mohammed V every year

71

Destinations

are covered by Mohammed V
airport flights.

Main destination cities:

Paris: 79 flights

London: 13 flights

Frankfurt: 13 flights

Dubai: 7 flights

Toulouse: 9 flights

New York: 7 flights

Montreal: 7 flights

A living and working area

Casablanca's Aeronautics Park confirms its vocation of excellence cluster and offers to the companies settled there a safe space for work and living, combining economic efficiency and comfort.

The Aeropole of Casablanca includes 6 dedicated areas:

- Aircraft industries park
- Aeronautical services park
- Industrial park: industrial activities area dedicated to the innovative and non-polluting industries
- Hotelwork area
- Training unit
- Logistic

To meet with the companies' needs, the construction works for a living base-area will start 2016, including a mall, hotels, an international conference center, banks, a post office, a health emergencies center and a restaurant.

They trusted us

The main companies (in terms of staff employed) who trusted us :

Aeronautics :

- AIRCELLE
- STELJA AEROSPACE MAROC
- MATIS AEROSPACE
- LISI AEROSPACE CREUZET MAROC
- AEROLIA CONSTRUCTION AERONAUTIQUE DU MAROC
- RATIER FIGEAC
- SERMP
- SIMRA MAROC
- CASABLANCA AERONAUTIQUE
- SAGEM MAROC
- WAGA ENGINEERING ET DISTRIBUTION
- SPMA
- ASM AERO
- EGIMA
- CM DEVELOPPEMENT
- UMPM
- SYNERGIE CABLES
- RDO
- HALMES MAROC

Training unit

- GEODE
- OFPPT "ISMALA"
- IMA

Associated industries :

- ALPHA PLASTIQUE
- ASSIAQA CARD
- BANCHEREAU MAROC
- BARID AL MAGHRIB
- BATIMENT CHEMICALS
- BAYER
- BLOCOTELHA
- CO.BO.MI
- DUFFRY MAROC
- F L O S I T
- FIRST PLASTICS
- FRANINVEST
- FUTURAPLAST
- TECNOGRAVURA
- INTERNATIONAL FOOD COMPANY
- KITEA
- LOGICOLD
- LOGISMAR
- M.B.I
- M2M SECURE PAYEMENT SERVICES
- EMI MA
- MARINE ROYALE
- MEGA HISSOTO MAROC
- BIOCODEX
- NATUREX MAROC
- NPONE
- ROLINO
- SERVIER MAROC INVESTISSEMENTS
- SOCAFIX
- SOPHADIAL
- STYLWAY DECORS
- MCDF
- AIK TECHNOLOGY
- MAWARID MAROCAINE
- QUIMIPAPEL
- LOGISTIS
- INDUMAT
- STEEL FRAME INDUSTRY
- ATASA

Logistic

- DHL Aviation
- I.D.F.S

Training area:

- A.I.A.C : Mohammed VI International Civil Aviation Academy trains aeronautical technicians, controllers and civil aviation engineers.

- I.M.A : "Institut des Métiers de l'Aéronautique", an aeronautics institute for aircraft industry technicians' training.
- I.S.M.A.L.A : a training center of the OFPPT for aircraft industry and the airport logistics technicians.

Turnkey solutions

The «**Ready to output**» is a high-tech space adapted to the immediate needs of any company whatever its size. Intended for the aircraft industry, these production areas of 1200 m² each, are equipped with electricity, water and computer network so as to move in quickly and hence start producing immediately.

The «**Ready for services**» is a “smart” structure serving your activity. These are «ready for use» spaces intended

to welcome the providers connected to aircraft industry and to innovative sectors.

The structure is made of units designed according to the “smart buildings” concept of 396 m² office, already wired and completely modular.
